TTR TECHNOLOGY

MANAGED FIREWALL-AS-A-SERVICE

Secure your network with ease – leave the firewall management to TTR Technology.

(866)-217-7225 INFO@TTRTECHNOLOGY.COM TTRTECHNOLOGY.COM

TTR Technology’s Managed Next Generation Firewall Services provide around-the-clock monitoring and expert management to protect your network from evolving threats and malicious traffic. Our top-tier service enhances the value of your firewall investment while removing the complexity of managing it in-house. With built-in features like intrusion prevention, malware detection, web filtering, and application control, our solution offers advanced, layered protection. Gain real-time insight and full control over your network traffic, backed by 24/7 expert support, the perfect choice for organizations looking to safeguard critical data without straining internal resources.

WHY TTR TECHNOLOGY?

- 24/7 Monitoring of Threat Risks.
- Improve Compliance & Business Agility.
- Reduce Attack Surface.
- Address Internal Skill Shortages.

FEATURES & BENEFITS OF TTR TECHNOLOGY'S NEXT-GEN FIREWALL MANAGEMENT-AS-A-SERVICE

Firewall Expertise🔐

Rely on TTR Technology's certified security experts with deep knowledge of next-gen firewall technologies and industry best practices. We tailor the solution to your specific business needs for optimal protection.

Amplified Threat Protection ⚡

Leverage real-time monitoring and proactive threat intelligence to stay ahead of evolving cyber threats and ensure continuous security.

Compliance Expertise 📋

Ensure strict adherence to regulatory and industry compliance standards, reducing legal risks and maintaining audit readiness.

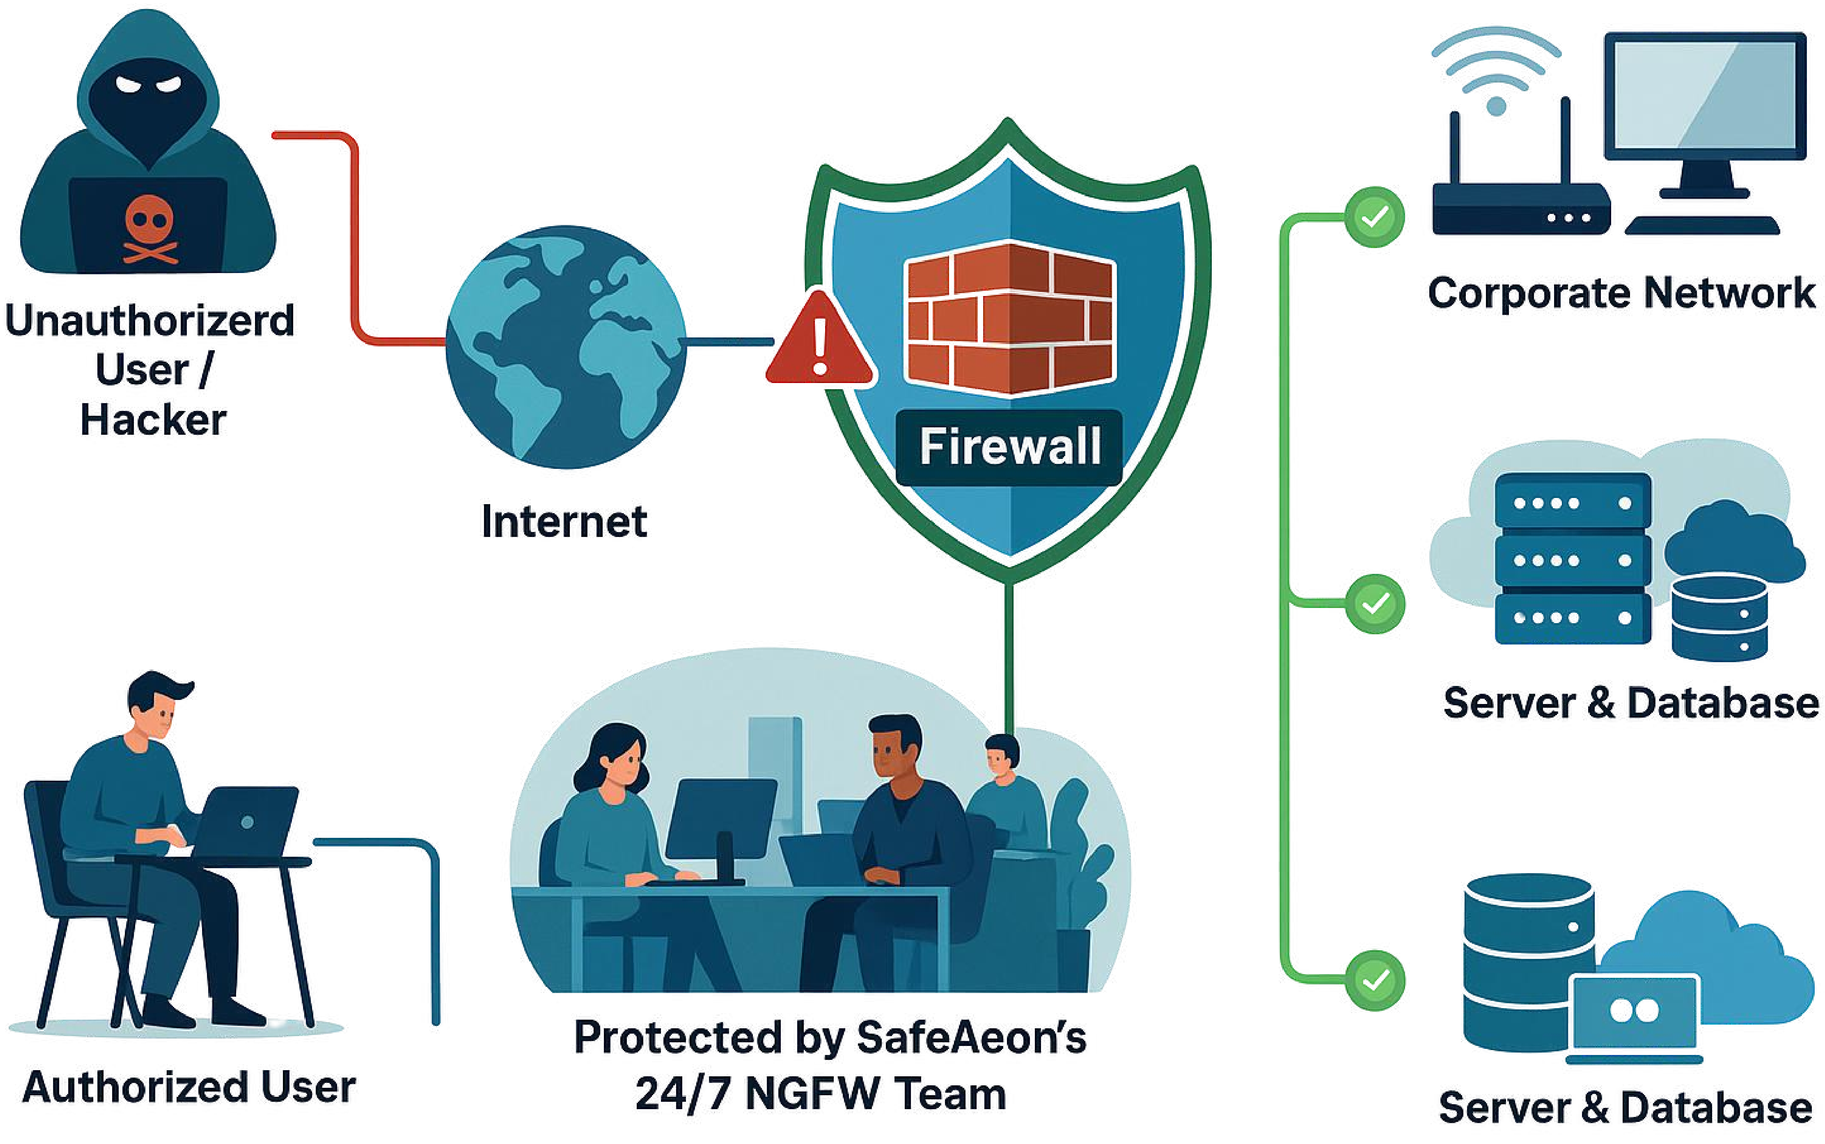

Stronger Security, 24/7 🛡️

Ensure continuous protection with around-the-clock firewall management—detect and respond to threats instantly, minimizing downtime and preventing data breaches.

Smarter Cost Savings 💰

Access top-tier firewall expertise and enterprise-level defense without the high expense of hiring and managing an internal security team.

HOW NEXT-GEN FIREWALL MANAGEMENT-AS-A-SERVICE WORKS

WHY CHOOSE TTR TECHNOLOGY'S NEXT-GENERATION FIREWALL MANAGEMENT-AS-A-SERVICE

- 24/7 hardware health monitoring and alerting to ensure optimal performance and prevent downtime.

- Policy provisioning for day-to-day firewall changes, enabling flexibility and rapid response to evolving network requirements.

- Expert incident handling to promptly address and resolve emerging security threats.

- Regular updates, including hotfixes, upgrades, and signature updates, to ensure your firewall is always equipped with the latest security features.

- Fine-tuning device configurations and resolving connectivity issues to maintain uninterrupted access and optimal network performance.

- Ongoing maintenance of firewall operating systems and key features like VPN, User-ID, App-ID, GlobalProtect, and URL filtering.

- Coordination with the firewall vendor’s support team for RMAs (Return Merchandise Authorization) and complex issue resolution.

- Scheduled backups and configuration restores to prevent data loss and ensure business continuity.

- Fast restoration of RMA device configurations to bring systems back online quickly in the event of hardware or software failure.
